I’VE GOT 99 PROBLEMS

BUT MARGIN SIZE AIN’T ONE OF THEM
APA is the standard citing style at Assiniboine. It is simply a tool to help you do your assignments with integrity, and a way to participate in the scholarship of your program’s field of study. Many of its rules will not apply at a community college level. More information on using APA citing can be found by talking with your instructor, or through the resources:

I DON'T ALWAYS WORK IN GROUPS

BUT WHEN I DO, IT'S ETHICAL
Collaboration is working ethically with others on an assignment or project. Examples are group projects assigned by your instructor, or forming a study group to prepare for a test or exam. Collusion occurs when two or more people are working together when they are not allowed to. For example, working as a group on an assignment that has been assigned individually, or giving test answers to another student are collusion. Make sure that you follow your instructor’s rules around collaboration. If you do not know what the rules are, ASK before you start the assignment.

For more information on collaboration and collusion, talk to your instructor, or contact Josh Seeland: seelandjl@assiniboine.net
